About Kadam Organics

“KADAM” is a Hindi language word, meaning “Step” clearly defines KADAM ORGANICS. The name “Kadam,” perfectly encapsulates our mission. We are more than an organization; we're a transformative 'step' propelling the shift from conventional to organic farming. Our commitment extends to ensuring better market prices, supporting and empowering our farmer and Wild Harvesters.

Sprouting from a Certificate course in Organic Agriculture in 2004-2005, the establishment took its first steps in 2014, initially focusing on forming ICS, organic farmer groups, and certifying wild heritage for 40 herbs. The journey from 2005 to 2014 saw visionary leaders of Kadam Organics Mr. Bhagwan Patel, Mr. Chandresh Lekhari & Mr. Keshav Meghwal initiating a startup with the farming community to champion the cause of organic farming. Their efforts empowered and motivated farmers, contributing to the organization's positive and progressive ethos. Today, it stands as a dynamic company committed to fostering an integrated model that guides marginal farmers towards the sustainable cultivation of organic spices, pulses and medicinal herbs.

Streamlined Processing Facility

Our advanced 15,000 sq. ft facility includes a warehouse with 1000 MT capacity, resilient against adverse conditions. With 10,000 sq. ft of storage and a dedicated 4,000 sq. ft space within for organic processing, our infrastructure ensures optimal preservation. Advanced machinery processes high-quality organic herbs, guaranteeing final products consistently meet international standards.

Our Product Range...

1. Organic Essential Herbs
2. Organic Tea Ingredients
3. Organic Herbal Powder
4. Organic Spices / Seasoning

Available Form...

WHOLE / RAW

POWDER

TEA BAG CUT (TBC)

Our certification

Unrivalled Output in Powder and Tea Bag Cut Form

We meticulously curate and process a remarkable 300-350 metric tons of premium organic products annually. This commitment to delivering quality transcends conventional boundaries, solidifying the company as a distinguished leader in the field.

PRODUCT	PART USED	TEA CUTS		
Amla	Fruits	4-6 mm	2-4 mm	0.5/1/2 mm
